

solaris
diagnostics

A high-complexity CLIA accredited laboratory, Solaris Diagnostics assists clinicians and health care providers to quickly identify the pathogens and underlying causes of disease.

We know better patient outcomes are achieved through fast, accurate, and reliable laboratory results.

UTI ID Panel

Comprehensive panel detecting, by Molecular Technique, urinary pathogens.

Testing with high sensitivity and specificity compared to the traditional urine culture technique. We identify pathogens difficult to grow in culture and use the largest pathogen menu available.

Fiscally Responsible Urinary Infection Testing Option.

- This panel will reflex from Urinalysis to UTI ID
- Panel based on the same criteria as the traditional UA, culture if indicated
- Patients avoid higher cost of UTI ID Panel if unnecessary
- Ensures only medically necessary testing is conducted

Now you can provide patients the quickest and most accurate diagnosis possible.

- Quick TAT, reports by 5 p.m on the day specimen is received
- Drug resistance marker results available prior to antibiotic sensitivity results
- Traditional antibiotic sensitivity results accompany UTI results
- Individual pathogen test ordering available

Pathogens Detected

E. Coli
Staphylococcus aureus
Staphylococcus saprophyticus
Enterococcus faecalis
Ureaplasma urealyticum
Mycoplasma hominis
Candida species
Proteus mirabilis
Klebsiella pneumoniae
Morganella moranii
Serratia marescens
Klebsiella oxytoca
Enterobacter cloacae
Providencia stuartii
Pseudomonas aeruginosa
Streptococcus agalactiae

Also Detected

Antibiotic Sensitivity
(Via culture. Sensitivity results following day.)
Resistance Markers
(via PCR)
